

Federal Communications Commission  
Washington, D.C.

I am a Continental Airlines frequent flyer who flies 100,000 miles each year. I am also a long time member of Continental's Presidents Club and always use the wireless access that each of the Presidents Clubs provide. I strongly support Continental's Petition to the FCC. I certainly want Continental to be able to continue to provide its own wireless service to me and other members at Boston Logan and other airports. This is a free service that I rely on wherever I fly.

I regard Massport's position as an example of sheer greed by Massport and its wireless vendor. The fee of \$7.95 per day is really a fee closer to \$7.95 per hour. No one intentionally spends an entire day in an airport. The maximum we normally spend is an hour or less. As far as the WiFi at the President's Club interfering with security, that is patently absurd. Please note that an increasing number of US airports now provide complementary WiFi access throughout the airport. This includes Portland's PDX.

Thank you for ensuring the right of the public to use the wireless service of its choice.

Regards, Jim Richardson
